Let's get down to brass tacks, as the saying goes. The history of Race in North America is like a bucket of eels. It is no accident that most White Americans are confused about Race and rightly so. There has never been a strictly racist resistance movement. Surprise! Surprise! Well golly! That's correct; not in this nation nor in Europe, for that matter.

A racist movement must consider the racial welfare of the people as its number one obligation. Not the church, not the money, and not other side issues which one can dream up. In Europe, the White Monarchs cared about the welfare of a tiny faction of Blue-Bloods at the top. White Monarchs routinely oppressed their populations. They routinely made deals with Jew merchants, tax collectors, and yes, Jew slave holders, who were allowed to take White slaves, since the Church did not sanction Christians in the slave trade.

Not one White racial group or nation was ever treated as badly and brutally as European Whites, both under the Monarchs, the Church, and later the Industrial Revolution. By no stretch of the imagination can you call European history racist, at least not in the sense that I use the word. The combination of Church and State was simply a method of enslaving the White Poor.

Today, and for a long time afterwards, the Right-Wing Conservative Trojan Horse has spent all of its waking hours sugar-coating history, until most of us were convinced the history of White people was the history of the White elite. Bizarre as it may seem, non-elitist Whites have been educated since youth to forget the betrayal of their race by traitors of their own blood. Very little White working peoples' history is promoted in school, at home, in the movies or in the churches. The youth, and for that matter even my generation have been sold the bill of goods that Whites have had it made; that Negroes and others were terrible victims of White racism. They were victims of greed and mercantilism, not victims of my kind of racism. If it were true, why was there never a White labor movement in the South; why no White middle class in the South, prior to and long after the Civil War? Why did thousands of White workers have to employ violence or threatened violence to stop White child labor, excessive work hours and Negro scabs brought in by so-called racist bosses to crush White strikes?

The lie that this was strictly a racist nation does not hold water. A racist nation with racist leaders

paving the way for the merchants and, if need be, the cold steel of the merchant-christian army.

Now, don't get me wrong. If our European Race needed more room or more materials for our survival, we would not hesitate to take it. However, we would take it honorably, either by agreement or conquest; none of the hypocritical nonsense that has been peddled to the non-white world for the past 100 years could be considered honorable.

Probably the least understood economic war, which resulted in the deaths of vast numbers of White men, women and children, was the Rebellion or, what you know as, the Civil War. The Negroes were property, pure and simple. If it had been just mules and not slaves, the mule slavers would have fought to the death to keep their mules. To gain the economic

upper hand, the North would have freed the mules. The fact that the Negroes were slaves had little to do with it. One percent of the south held 99% of the wealth and slaves; the rest, the White population was left to fight over. This is economic oppression with a false veneer of racism. When needed, a little working class racism could be injected by the 'master,' but only enough to serve the 'masters' immediate needs. Playing Whites against Negroes, as a simple economic control method, was never serious racism. Nothing like the New York Draft Riots during the Civil War. Now that was real racism. It took all the cops in New York plus the Army to stop it.

Actually, Lincoln, who was a minority elected

The founder of the Klan, General Nathan Bedford Forrest, was a very wealthy man. He owned at least two large plantations and a large number of slaves. His bravery during the War cannot be challenged. His attitudes about the Negro certainly can. His speeches after the War sound more like they came from a social liberal than a racist. Forrest actually advocated bringing more Negroes to America to furnish more labor, even after the Civil War. Other statements he was quoted as making certainly would exclude him from our idea of racism. Perhaps the racism of a Buchanan, or even a Wallace, not in line with our thinking at all.

Even before the War, Southern politicians attempted to swell their representation in the Congress and Senate by re-classifying slaves as apprentice laborers. This, of course, would have further degraded White labor in the south.

Probably no scam has hurt the White race like the fratricidal wars of WWI and WWII. As healthy American youth marches off to kill healthy German youth, tens of thousands of Negroes move into the White work force throughout the north and west. What the Iron Heel money masters could not achieve before the Civil War they now achieved using the silly battle cry of "saving the world for Democracy." Northern cities filled with Negroes, as did all the war industries in the west. Military bases became as they still are today, centers of race-mixing and lots of criminal activity. Just one large welfare works program. National defense, no, Corporate defense, more like it. White racial defense, no, sorry, it's just the opposite.

All this anti-white race history is now called White racist history. Again, this history has been comprised of nothing but greed, power, and religious fanatics, with a slight veneer of racism, then, only used to advance profit making.

Now that we all live on a world plantation system, operated by super-international predatory capitalists, even a small percentage of racism is no longer of use to these world class swine.

The maximizing of profits can be best served by the elimination of the trouble-making White rank and file. As in the slave system of the South, there was little need for White workers on a plantation. Whites, for the most part, were left to their own devices to fight each other over what crumbs fell from the Southern elites' table.

Thus we have come full circle since that time. Instead of a Southern slave elite class and a Northern

The lie that this was strictly a racist nation does not hold water. A racist nation with racist leaders would not do things contrary to the healthy interests of their own people. At least the Jews have an excuse. They are not of us and should care less what happens to us, unless somehow our destruction will lead to their destruction, which is very possible if not inevitable. When the host dies, the parasite is very likely to die also. This, of course, is of little comfort to us.

When religious and political leaders point their fingers at racial separatists and say that we should be ashamed of our racist past, it is more than one can bear. What they don't say is that the theft and oppression of non-white countries has most to do with the mercantile system, which is the forerunner to the predatory capitalist system, wrongly called free enterprise. Along with the East India Company, and many others, were the priests who were bent on saving every ones' soul; the same was accomplished in Europe at the point of a sword. Religious fanatics

If the slave trade and plantation system had been allowed to move throughout the west and northwest the Black race would have grown to at least 50% of the population by now. That, not counting the half-breed mulattos who would have been produced along the way.

Most Southerners venerated men who did not fight for the race but for a rich elite lifestyle. Rich slave-owners actually allowed their own babies to wet nurse off Black Nigger mammys. If that was racism, it was a very strange style of elitist racism. Can you imagine allowing your white baby to be wet nursed by a Negro? If you can, then you totally misunderstand racial separatism.

Most racial activists do not read enough history.

It is the time of do or die. There is no place to run and no place to hide. The untried battle cry of pure intolerant racism must be the watchword and battle-cry. White men and women have far too long been way too tolerant. It is time for Whites to be vicious, ruthless, hateful and to seek revenge for the economic oppression most of our ancestors have lived under.

My mother used to quote, from where I don't know, this sentence: "more blood in the gutter and me without a spoon." My parents were factory workers who went to work in the dark and came home in the dark. At long last I grasp the meaning to that statement about blood.

Letters to the Editor

Dear Sir,

It's a surprise to find a web page like yours. May I receive a specimen of your magazine or other information about the WAR Resistance?

Best Wishes.

WAR,

Many thanks for the videos (History of WAR I, II, and III) and thank you very much for sending the extra Race and Reason shows. Just watched part one, and, as always, was mighty impressed. Absolutely amazing what you've done.

With Utmost Respect and Appreciation.

WAR,

I strongly admire your guts; it is about time someone stood up for our race! I am in West Virginia and you would not believe how bad it has become here. I want to join the fight! You at WAR are friends of mine; let me know if I can help.

WAR,

WAR,

I am very pleased to see that you guys have a Page. I support your cause absolutely. I feel I could be of help. I am very intelligent and creative. I am an 18-year-old Art student who believes that Might Makes Right! Any info or reply would be greatly appreciated. Thank you and keep up the cause.

Hail Victory!

Hi WAR Staff,

I have a comment to make about the right-wing.

Our Aryan race is in deep trouble. I believe our biggest problem are the right-wing, turn-coat race-traitors. In my opinion, the right-wing are more dangerous than the left-wing. They are so sick and filthy. They are garbage cans. They created the System that we live under and then, the gutless wonders have the gall to moan and groan when the monster they created turns on them to eat them up. I laugh at them; they are so funny.

Keep up the good work.

Hail Victory.

Response: Thanks. You hit the nail on the head; the right-wing is a Trojan Horse.

Hello,

I'm 25-years-old and live in Portland, Oregon. I saw you folks on TV the other night, Inside Edition, or some program like that. After you left Portland I hoped you would do well.

I really believe you got a raw deal here. Regardless of whether anybody thought what you were saying was right or wrong, you had a right to say it, and for the most part I agreed with you. I miss seeing Race and Reason. It's funny how those Paragon viewers raised hell about that, but they put Jim Spagg on the air.

You aren't missing much here, though; these people are a lost cause. I'm moving to Darby, Montana. I understand it's quiet and not a Nigger in the whole town.

Do you know of any like-minded individuals in the area? Do you know of any ways I could be active in the area?

Anyway, glad to see that you two are still going. If there is anything I can ever do, please let me know. If you would accept a donation from me, I would be happy to

I am a US ***** Officer currently stationed in South Korea. I am **VERY** concerned about the state of affairs our nation has fallen to and would like more information on White Aryan Resistance. Please send all available material to me, as well as information on how I can make a financial contribution. Due to recent US military anti-First Amendment rights' rules, I am not at liberty to receive your mail at my military address. For that reason, I need you to send it to a civilian address here in South Korea and it will be given to me. Thanks very much and I look forward to receiving your letter.

We are from Iceland and we are very happy that you exist.

Why I Hate The Jews

by Wyatt Kaldenberg

Jews love to ask why we hate them so. New people to the Resistance ask the same question: Why the Jews?

Niggers are easy to hate. Any Liberal who has ever had his BMW car-jacked by a talking ape can learn to hate Niggers. But Jews are a different matter. Jews seldom commit street crimes. Niggers will stick a gun in your face or hit you over the head with a club. Niggers break the law to fight the White race, whereas the Jews use the law to kill our People. A Jew dug deep within the System is a far greater threat to Aryan survival than some Nigger street punk. Beware of the 'law-abiding Jews' for they are the ones who will cause the West to fall.

When boat-loads of Jews were running from Hitler, America put out the welcome mat. How did the Jews reward us? They organized mobs of Niggers in the Civil Rights Movement and attacked everything that was pro-White.

The Jews promoted race mixing, even though they know that White genes are recessive and any mixing of the two races would mean the death of the White Race.

Integration is genocide against the White Race.

Think of what a lovely White nation America would be if Uncle Sam would have sent warships to blast the Jews out of the water. Instead, the Jews now control America and it appears that America will become a Third World nation within our lifetime.

The Jews accuse Whites of having a racist past. The truth is we have never been racist enough.

I don't hate the Jews because some of them have hooked noses, nor because a myth says they killed Christ, nor because they practice a funny religion.

I hate the Jews because they hate the White Race. I hate the Jews because they promote a concept known as Universalism, which is the belief that mankind must become One Race in order to have World Peace and Justice For All. Today, Universalism is the state religion.

The White Race is caving in on itself. 3,000 years ago over 50% of the human race were White. Today, we are less than 8% and within one hundred years, if trends remain the same, we will be less than 0% of the human race. The Jews and their teachings play a major part in our downfall.

Look at American history; our nation started to decline, and at the same time large amounts of Jews arrived here, escaping Nazi terror.

The Holocaust survivors flocked to the film industry, the newspapers, the air waves and the colleges in search of jobs which would place them in positions where they could set the moral tone for America.

They went to Wall Street so they could get a hold of our money. The Jews seek out jobs which put them into power positions. Within 50 years of the New Exodus, Aryan America became Z.O.G.

Whites were kind to Jews and now we are aliens in our own nation. Any White person who wants to turn America back to the White nation it was before the boat-loads of Jews arrived is a hate criminal.

However, it isn't enough for the Jews to steal our land. The Jews are too full of hate to stop there. The Jews had to create the so-called Women's Movement and teach White women to hate White males and also

I hate the Jews because they created the generation gap. In the 1960s, it wasn't enough for the Jews to turn Aryan men and women against one another with the Women's Lib Movement. They had to get young Aryans fighting the elderly. It was a Jew named Jerry Rubin who advised Aryan youth to "kill their parents," and to "never trust anyone over 30."

The Jews made a big deal about the Central Intelligence Agency (C.I.A.) bringing Cocaine into the United States, where Black gangs turned it into Crack and sold it among the Black community. This, the Jews claimed, proved that the White Race is pushing drugs on Blacks. However, the Jews never tell you that the C.I.A. isn't a pro-White outfit, but merely a tool of the Jews. Nor do the Jews tell you that most of the Cocaine wasn't sold to Black Crack dealers. The majority of the C.I.A. Cocaine remained as powder Coke and was sold to White people.

Z.O.G. created the drug culture to lower White kids' IQs so that Whites would be equal to Niggers.

Remember, Dr. Timothy Leary and Dr. Richard Albert, who later became Ram Dass, were both hired by the C.I.A. to conduct L.S.D. experiments on Aryan college students. Timothy Leary and Ram Dass became the gurus of L.S.D. in the 60s and got Aryan youth to "Turn on, Tune in, and Tune out." It was the C.I.A. who turned so many White kids into worthless brain-dead Niggers, but hell, anything for equality. Notice how Z.O.G.'s drug culture went after the best Aryan minds first. L.S.D. started at the colleges and worked its way down to the less educated Whites.

And don't forget, it was the C.I.A. who first took Peyote Buttons, which are a mild hallucinogen, and created the mind-devouring drug Mescaline, which wrecked some of the best Aryan minds of my generation.

It makes me sick to hear Z.O.G. ask for more police power and more tax dollars to fight the war on drugs, when it was Z.O.G. that created the problem in the first place.

I hate the Jews because they do so many evil deeds that I can't fit them all into one long article. In fact, you couldn't fit all the Jewish wickedness into one book. One lifetime isn't long enough to write down all the screwed-up things which the Jews do.

However, I couldn't put my finger on the greatest

teach them that motherhood is a form of slavery forced on the White woman by the evil sexist White man.

The Jews love to push equality as though it is a cure for all the world's ills.

A Jew dug deep within the System is a far greater threat to Aryan survival than some Nigger street punk. Beware of the 'law-abiding Jews,' for they are the ones who will cause the West to fall.

When boat-loads of Jews were running from Hitler, America put out the welcome mat. How did the Jews reward us? They organized mobs of Niggers in the Civil Rights Movement and attacked everything that was pro-White.

The Jews promoted race mixing, even though they know that White genes are recessive and any mixing of the two races would mean the death of the White Race.

Integration is genocide against the White Race.

Think of what a lovely White nation America would be if Uncle Sam would have sent warships to blast the Jews out of the water. Instead, the Jews now control America and it appears that America will become a Third World nation within our lifetime.

The Jews accuse Whites of having a racist past. The truth is we have never been racist enough.

I don't hate the Jews because some of them have hooked noses, nor because a myth says they killed Christ, nor because they practice a funny religion.

I hate the Jews because they hate the White Race. I hate the Jews because they promote a concept known as Universalism, which is the belief that mankind must become One Race in order to have World Peace and Justice For All. Today, Universalism is the state religion.

The White Race is caving in on itself. 3,000 years ago over 50% of the human race were White. Today, we are less than 8% and within one hundred years, if trends remain the same, we will be less than 0% of the human race. The Jews and their teachings play a major part in our downfall.

The movie "The Planet of the Apes" is a prophecy.

I hate the Jews because they can never admit that Jews have done wrong. No Jews were ever involved in the Black Slave Trade. Nope, no Jews were ever members of the Communist Party. Jews in Hollywood? Never! Jews are merely saintly victims who are scape-goated by bigots.

Jews love to blame White men for all the evils of the world. The White man brought the slaves over, and he mistreated the Indians, and he oppressed all the women of the world, and he cut down the Rain Forest, and the White male invented hate and war and disease and forced Blacks to smoke Crack Cocaine.

The Jews are the most racist people on Earth. I don't mind that the Jews are racists. I hate the fact that they lie about it. The Jews hate the Aryan Race, and they don't see this as racism, but merely as a fight for social justice and equality.

Jewish history is a racist lie. They love to act like they are friends of the Black Race. They claim to have

into power positions. Within 50 years of the New Exodus, Aryan America became Z.O.G.

Whites were kind to Jews and now we are aliens in our own nation. Any White person who wants to turn America back to the White nation it was before the boat-loads of Jews arrived is a hate criminal.

However, it isn't enough for the Jews to steal our land. The Jews are too full of hate to stop there. The Jews had to create the so-called Women's Movement and teach White women to hate White males and also

teach them that motherhood is a form of slavery forced on the White woman by the evil sexist White man.

The Jews love to push equality as though it is a cure for all the world's ills.

Equality has been tried and it has failed. Communism is just another word for equality. Over 200 million people died under the Communist quest for equality. How much more blood must be spilt in the name of equality before the Jewish thirst is satisfied.

I don't hate the Jews because they are ticks. However, I do hate the Jews because they believe they have a moral right and duty to reform their host. It is not enough that they suck the hosts' blood; the Jews have to transform the host itself. The Jews believe they must destroy the host nation in order to save it.

The Jewish Master Plan is to crush all traditions and values of the host and replace them with Jewish enlightenment.

To resist Jewish enlightenment is a hate crime.

Anything that helps the host is a hate crime. Hate crimes are an attack on the White male. If a White guy calls a Nigger a "Spade" in a fist-fight, then that is a hate crime. If a White kid gets caught handing out pro-White literature, then that is a hate crime. But

and sold it among the Black community. The Jews claimed, proved that the White Race is pushing drugs on Blacks. However, the Jews never tell you that the C.I.A. isn't a pro-White outfit, but merely a tool of the Jews. Nor do the Jews tell you that most of the Cocaine wasn't sold to Black Crack dealers. The majority of the C.I.A. Cocaine remained as powder Coke and was sold to White people.

Z.O.G. created the drug culture to lower White kids' IQs so that Whites would be equal to Niggers.

Remember, Dr. Timothy Leary and Dr. Richard Albert, who later became Ram Dass, were both hired by the C.I.A. to conduct L.S.D. experiments on Aryan college students. Timothy Leary and Ram Dass became the gurus of L.S.D. in the 60s and got Aryan youth to "Turn on, Tune in, and Tune out." It was the C.I.A. who turned so many White kids into worthless brain-dead Niggers, but hell, anything for equality. Notice how Z.O.G.'s drug culture went after the best Aryan minds first. L.S.D. started at the colleges and worked its way down to the less educated Whites.

And don't forget, it was the C.I.A. who first took Peyote Buttons, which are a mild hallucinogen, and created the mind-devouring drug Mescaline, which wrecked some of the best Aryan minds of my generation.

It makes me sick to hear Z.O.G. ask for more police power and more tax dollars to fight the war on drugs, when it was Z.O.G. that created the problem in the first place.

I hate the Jews because they do so many evil deeds that I can't fit them all

into one long article. In fact, you couldn't fit all the Jewish wickedness into one book. One lifetime isn't long enough to write down all the screwed-up things which the Jews do.

However, I couldn't put my finger on the greatest reason I hate the Jews until I saw the movie "Michael Collins," which is about the troubles in Ireland in the mid 1920s.

Michael Collins had a scene in the movie where he was saying that he didn't hate the English for their Race, nor for their traditions, but he hated them for making hate necessary. He hated them for making terror and violence necessary. Michael Collins hated himself for putting guns and bombs in young lads' hands and he hated the English for giving him no other choice but to use violence and hate. When I heard this speech it was like someone had opened up my soul.

This is why I hate the Jews, because they make hate necessary. They came to America as guests and have wrecked our once great nation and turned our Democracy into a Police State which has declared war on the White Race. I hate them for making reform impossible and violence and terror and bloodshed our only way out.

I am a nice guy by nature. I don't like gore-filled movies. I don't like hunting and killing animals. I don't like the violence in most sporting events, but when

The Jews never tell you that they invented Capitalism, Banking, and that most ships which brought Black slaves to the Americas were Jewish-owned. Over 60 million Blacks died at sea on their way to the New World aboard Jewish-owned slave ships.

Less than 1% of Whites in the South ever owned slaves. Over 300,000 White men in the Union Army died in furtherance of freedom for Black slaves. Do the Blacks and Jews ever praise Aryans in the Union Army who died assisting the Black Race? Hell no!

All you hear is that the White man owes the Blacks for slavery. Over 250,000 Aryan Americans died in World War II so the world would be safe for Jewry.

How did the Jews repay us? As soon as the Jews arrived on American soil they began attacking our nation, our traditions, and our way of life.

If a White kid gets caught handing out pro-White literature, then that is a hate crime. But interracial rape, which is overwhelmingly a Nigger-on-White crime, is not seen as hateful. Muggings, carjackings, armed robberies, purse snatchings, and so on are all Black-on-White crimes, therefore, the Jews don't consider them as hate crimes. If interracial rape was a crime committed by White males against Black females, the Jews would be monitoring it closely and writing reports about it.

In his book, "Soul On Ice," Eldridge Cleaver wrote that Black men raping White women was an act of war. In the 1960's, the Jews held Cleaver up as a political prisoner since his only crime was raping White women and the Jews felt that Niggers had a right to rape White women because of slavery. The Jewish left-wing turned Eldridge Cleaver into a folk hero. Cleaver's book went on to say that every crime Blacks commit against Whites is an act of war and a pay-back for slavery. The Jews have no problem going along with that.

I hate this government. I hate all Z.O.G. supporters. I even hate their children. The only way to save the White Race is through violence. We can't reform Z.O.G.; we have to kill it.

Decent, law-abiding Whites have to learn to become criminals. Family men must learn to kill. We must learn to hate.

I hate the fact that violence is our only way out. I hate the fact that we have to teach our children to hate. I hate the fact that if I care about my Race and elect to love my people that I have to hate and kill. I hate the fact that America has become so screwed up that in order to save the White Race, I have to teach my people to hate other races.

But most of all, I hate the Jews for making hate necessary.

Argentina Drops Plan To Prosecute Its Nazis by some Kike

Argentina has backed away from its own president's proposal to set up a Nazi War Crimes unit that would trace and prosecute some of the hundreds, if not thousands, of Nazi War Criminals still living in the country.

The idea for a unit was raised by President Carlos Menem in 1994, a few months after the terrorist bombing of the main Jewish community offices in Buenos Aires, which killed some 100 people.

"With our prayerful plea, we hope the world will take a real look at what's going on," says band spokesman Ben Khesed Ben Israel.

Why Clinton Said No To Clemency For Pollard from *The Jerusalem Report*

The knowledge that Esther Pollard was about to launch a hunger strike in Jerusalem forced President Bill Clinton to announce his rejection of the clemency request of her husband, convicted spy, Jonathan Pollard, *The Jerusalem Report* has learned. Perhaps the whole purpose of the American Jewish community is to ensure that these 'remnants' of Israel are protected in the infancy of their return to Zion. After that there will no longer be a need for a Jewish community in America. It will disappear, as did the great Jewish community of Babylonia.

Demolishing the Guilt Complex

from *Attack!* - New Zealand

The greatest enemy of the White Race is itself. The White Race is in full retreat throughout the world. This is because it alone, of all races, has lost the WILL to live. Survival of the species is the first law of nature. It is nothing less than perverse that the White Race should have lost that natural instinct for survival.

The instinct for survival has been lost very largely because the White Race has been subjected to decades of brainwashing propaganda. The White individual is told, day and night, non-stop, over every entertainment and educational media, that he must forever feel guilty for alleged injustices inflicted by his forefathers against the non-white races, while 'living it up' at their expense. The White is told that he has no cultural heritage, other than that of exploiting the non-whites. He is robbed of his racial identity, and is made to feel as though he is the lowest creature on Earth.

Whites As Scapegoats

Every failure of a non-white to 'make it' is blamed on 'White racism.' Alleged injustices of the past are held responsible for violence conducted against Whites by colored criminals. Simply put, the White can do no right, the colored can do no wrong. The liberal sages of parliament, churches and media tell us that it is the highest virtue to grovel forever at the feet of the colored races; even allow ourselves to be bred or killed out of existence, to atone for the sins of our Fathers.

This is what is termed the 'liberal guilt complex.' It is responsible for the world-wide racial masochism of the White Race.

This guilt complex has been so successfully instilled in generations of Whites that it is seldom White people who are even conscious that they are White, let alone aware of the rich cultural heritage that has been denied to them.

Now let us take a brief look at the manner in which the forefathers of most White New Zealanders lived in the English Mother-Country. We'll just mention a few facts about everyday life for the average Briton

frequent, and ensured a high mortality rate, especially among children. Women had to keep watch for rats which gnawed their babies' fingers.

Child Labor

In the 1800s, tens of thousands of White children were employed as slave laborers in British coal mines. Little White boys, 7-years-old, harnessed like donkeys, dragged through the darkness, carts filled with coal. Little White girls of the same age were filling up those carts. In 1842, White children aged 3 and 4 were working down pits. In the local church graveyards around the mining fields you'll see epitaphs on gravestones. "William Smith, aged 8, miner, died 1/3/41." These tiny children were working from before dawn to long after dusk.

Starving 14-year-old boys were hanged for stealing sheep. Ten-year-old children were imprisoned on the charge of having caused a public nuisance by spinning a top.

In Britain during the past century, one in four children died at birth. In 1851, only 45% of the population lived until they were 20-years-old.

accidents. Nor does it take into account the tens of thousands suffering from the fatal disease called 'Black Spittle.'

Then there were the little White boys who were sent up chimneys. The brutality to train such a small boy was sickening. The flesh had to be hardened and this was done by rubbing the small White boy, mainly on the elbows and knees, with the strongest brine as close as possible to a raging fire. Sometimes, cane would be used as an inducement to further rubbing. At first, they would return from their jobs with their knees and elbows streaming with blood and their knees looking as though the caps had been pulled off. These child chimney sweeps suffered with respiratory diseases and cancer of the groin. They slept on soot sacks in damp cellars.

There's quite a silence about all of this, isn't there?

The Highland Clearances

We wonder if there will be a White version of "Roots?" Perhaps some Scots will trace their lineage back to the Highland Clearances during the past century, when Scots were evicted from the lands which

they had occupied for all time. We wonder if it would make pleasant viewing? One report describing the eviction of a Scottish village reads as follows: "...not only when knocking down, but after the females were on the ground, they (the police) beat and kicked them while weltering in their blood. Such was the savagery with which the tragedy was carried through, that more than twenty females were carried off the field in blankets and on stretchers, and the appearance they presented with their heads cut and bruised, their limbs mangled and their clothes clotted with blood, was such as would horrify a savage."

These Scots and Irish Whites, forcibly removed from their lands by grasping landowners, were put on to ships sailing for the New World. A ship weighing 300 tons would load 400 passengers, all crammed into a hold 60 feet by 18 feet, and only 6 feet high. In one

We'll just mention a few facts about everyday life for the average Briton during the 19th Century when, as the TV producers would have you believe, Whites were living a life of luxury by the exploitation of the non-white races.

Worse Off Than Negro Slaves

The famous English social commentator, William Cobbet, stated in 1836: "The starving agricultural laborers of southern England are worse off than the American Negroes."

In 1834, six Dorset farm laborers formed a trade union in order, as they said, "to preserve ourselves, our wives, and our children from starvation." They were sentenced to serve 7 years in the New South Wales penal colonies for this crime.

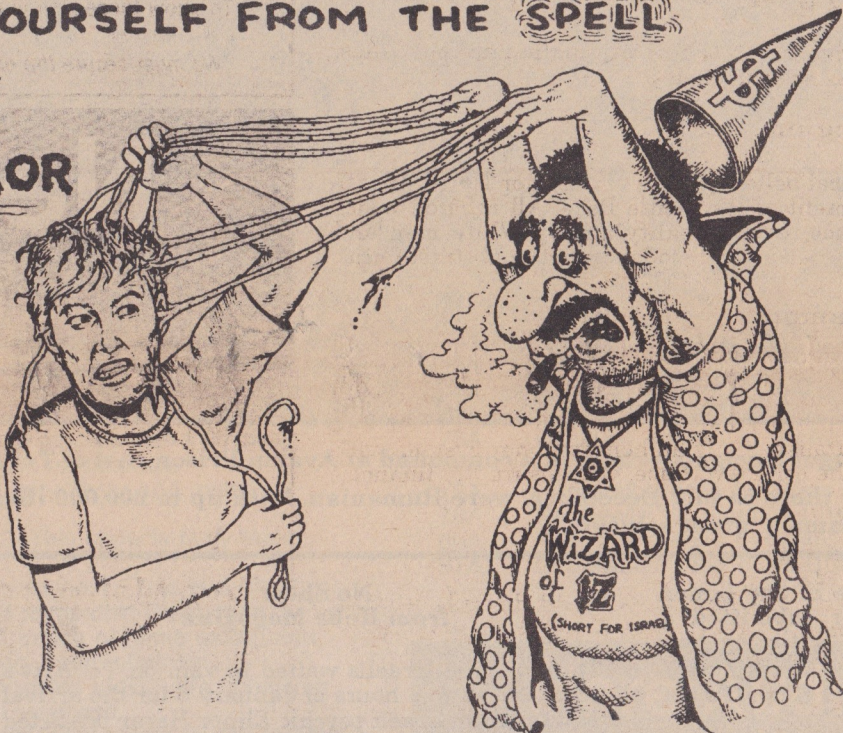

The situation of the urban workers was no better. Robert Owen, an industrialist who was also a social reformer with a concern for the welfare of his workers, declared in 1840: "The working classes of Great

Britain were worse off than the Negro slaves. Little white boys, 7-years-old, harnessed like donkeys, dragged through the darkness, carts filled with coal. The thriving cotton industry of the 1850s employed 15,000 White children under the age of 13. Six-year-old children worked from 5am to 9pm each day. Epidemics resulted in a high mortality rate. Unguarded machinery removed fingers and hands.

Prison

During this time, to be sent to prison was tantamount to a death penalty. Many were shipped in far worse conditions than the slaves were, to penal settlements abroad, for life, for petty theft, never to see their wives and children again and, in fact,

close as possible to a raging fire. Sometimes, cane would be used as an inducement to further rubbing. At first, they would return from their jobs with their knees and elbows streaming with blood and their knees looking as though the caps had been pulled off. These child chimney sweeps suffered with respiratory diseases and cancer of the groin. They slept on soot sacks in damp cellars.

There's quite a silence about all of this, isn't there?

The Highland Clearances

We wonder if there will be a White version of "Roots?" Perhaps some Scots will trace their lineage back to the Highland Clearances during the past century, when Scots were evicted from the lands which they had occupied for all time. We wonder if it would make pleasant viewing? One report describing the eviction of a Scottish village reads as follows: "...not only when knocking down, but after the females were on the ground, they (the police) beat and kicked them while weltering in their blood. Such was the savagery with which the tragedy was carried through, that more than twenty females were carried off the field in blankets and on stretchers, and the appearance they presented with their heads cut and bruised, their limbs mangled and their clothes clotted with blood, was such as would horrify a savage."

These Scots and Irish Whites, forcibly removed from their lands by grasping landowners, were put on to ships sailing for the New World. A ship weighing 300 tons would load 400 passengers, all crammed into a hold 60 feet by 18 feet, and only 6 feet high. In one year alone, of 13,762 passengers who sailed to the New World, more than one-third were attacked by Cholera; over 1,000 died. William Hutcheson, the Colonel Secretary, said: "I really do believe that there are not many instances of slave traders from Africa to America exhibiting so disgusting a picture."

Famine

In 1881, 25% of the population of such cities as Glasgow lived as families in one room situated in the worst slums history has known. Two million White Britons (and there wasn't a 56 million population then) lived solely on potatoes, nothing else, just potatoes. In Ireland, then part of the United Kingdom, 4 million lived on potatoes. During the Potato Famine, hundreds of thousands of them died of starvation.

colored races, even allow ourselves to be bred or killed out of existence, to atone for the sins of our Fathers.

This is what is termed the 'liberal guilt complex.' It is responsible for the world-wide racial masochism of the White Race.

This guilt complex has been so successfully instilled in generations of Whites that it is seldom White people who are even conscious that they are White, let alone aware of the rich cultural heritage that has been denied to them.

Now let us take a brief look at the manner in which the forefathers of most White New Zealanders lived in the English Mother-Country. We'll just mention a few facts about everyday life for the average Briton during the 19th Century when, as the TV producers would have you believe, Whites were living a life of luxury by the exploitation of the non-white races.

Worse Off Than Negro Slaves

The famous English social commentator, William Cobbet, stated in 1836: "The starving agricultural laborers of southern England are worse off than the American Negroes."

In 1834, six Dorset farm laborers formed a trade union in order, as they said, "to preserve ourselves, our wives, and our children from starvation." They were sentenced to serve 7 years in the New South Wales penal colonies for this crime.

The situation of the urban workers was no better. Robert Owen, an industrialist who was also a social reformer with a concern for the welfare of his workers, declared in 1840: "The working classes of Great Britain are in a worse condition than any slaves in any country, in any period of the world's history."

By 1840, 6 out of 7 of the workers in England and Wales lived in areas where the Poor Law was in force. This provided for the setting up of work-houses for the destitute. Yet conditions were so bad that people endured hunger and cold before applying for entry. In the work-houses, husbands and wives were separated from each other and their children. At a work-house in Stockport, a 72-year-old man was made to work the treadmill for 14 days for refusing to break stones. In Deptford, a four-year-old was locked three nights in the mortuary.

The great slum complex of St. Giles, London, some 12 acres, was crammed with people and rotting corpses. Toilet facilities consisted of ditches of putrefying filth. The foundations and rotting floors of dwellings rested on soil that absorbed the filth until it had become a putrid sponge. Cholera epidemics were

Many were shipped in far worse conditions than the slaves were, to penal settlements abroad, for life, for petty theft, never to see their wives and children again and, in fact, deprived of the bread-winner, their wives and children were likely to die at a very early age.

A prisoner sentenced to Gaol in Britain would work the tread-mill to 'learn the error of his ways.' It was something like the large wheels on the side of a mill. Plenty of slates, plenty of convicts on the slates churning away, doing no less than 12,000 revolutions, not steps, revolutions, before they were assured of their paltry meals. The Royal Commission in 1859 reported British prisoners throwing themselves under railway trucks because death was preferable.

Disease and Death

In the 1870s, no less than 1,000 British miners were killed every year down the pits. Frequent explosions in the coal mines resulted in a high mortality rate. This doesn't take into account more than double that number who were maimed and crippled in mining

while weltering in their blood. Monopoly Capitalists Responsible

The chronicle of sad events and suffering of our White forefathers during the past century is inexhaustible. Yet all we hear about is Black slavery and how our poor, wretched White forefathers were somehow supposed to have exploited the colored races!

The fact is, why should we do penance for injustices said to have been carried out on the colored races, and which could only have involved a tiny minority of Industrialists, who had more of an investment in Black slaves than in our wretched White forefathers, and treated them in a manner that the White workers of England would have envied?

This tiny minority of Industrialists (and their counterparts today) were nothing but traitors to their own racial kin. Their only interest was, and still is, in the quest for a quick profit.

WAR Positions

Race

What is commonly referred to as the White Race is the number one issue to WAR. The protection of the Race and its advancement is our number one issue.

Environment

Without a healthy and clean environment it is not possible to have a healthy Race. Pollution, waste, and overpopulation all endanger the Race. WAR Associates are expected to do all in their power to improve and protect our natural environment.

Warfare

Warfare for any other reason than to protect the White Race is self-destructive. War between White populations is an attack on the White Race. Only threats to the White Race should evoke military confrontation.

Abortion

WAR approves and supports state-sponsored abortion for those of non-white races. WAR opposes White abortion and promotes White support for healthy White mothers who are to have a baby and who are economically unable to support the child.

Right and Left-Wing Politics

Divide and Conquer is the watchword of our enemies. WAR does not recognize right-left politics as a solution. Only a focused view which adopts any idea from any source that leads to the betterment of the White Race is acceptable.

Allies and Enemies

Those who support Race Separation and self-determination are our allies. Those who promote integration of the races are the enemy.

Religion

Our Race is our religion. Mythical belief systems of Asian or North African origin are not acceptable to the advancement of the White Race. All religion which teaches equality is the enemy of our Race, even equality among White men and women. The White Race must deal in logic, reason and evidence, not in abstract faith.

Economics

Neither Marxism nor Capitalism are desirable as economic systems; both are predator systems which feed off the White Race. Rootless, international predatory Capitalism is the major enemy of the White Race today. Preferred: Restrained free enterprise as opposed to monopolistic Capitalism. Only an honest money system, with the top priority being the enrichment of the collective Race, will ensure the financial health of the White Race.

Women

Judaism, Judeo-Christianity, and the Muslim faith all degrade women.

Rights

Perhaps the most destructive and misleading word in our language. WAR denies the existence of inalienable rights. The most clever concept ever developed was the abstract theory of rights. You have a brain, you have muscle, you have the ability to reason and to think logically. Those are your intellectual arms. The State gives you privileges and the State may take away your privileges. As a good slave or, as some may say, sheep, you live allegedly free. When you resist the State you are no longer free. There are infinite possibilities, but no guaranteed rights. Balance of power is the only lasting protection.

Super State

There is no longer any sovereign state in the world. All nations are manipulated entirely by the International Money Power. Only the illusion of nations now exists. Those who think they can stop a One World Government in its formation must understand that the system is already in place. The Revolution came and went; now only counter-revolution is possible. There is no working within the System. The Universalist System must be destroyed, by any means possible.

The Missouri Guerrilla War 1860-1882

by John Jewell

Introduction

The American Civil War did not merely divide the United States: it shattered the White population. These wounds have never fully healed, and must not heal. The War of Rebellion went far beyond two rival governments and two regular armies contesting in the field. It concerned much more than Negro slavery. The Civil War was a savage conflict of guerrillas, partisans, bushwhackers, raiders, and home guards; vast secret undergrounds, spies, conspiracies, betrayals, assassinations, and massacres. It pitted White against White, brother against brother.

This is Exactly How the Next American Civil War Will Look

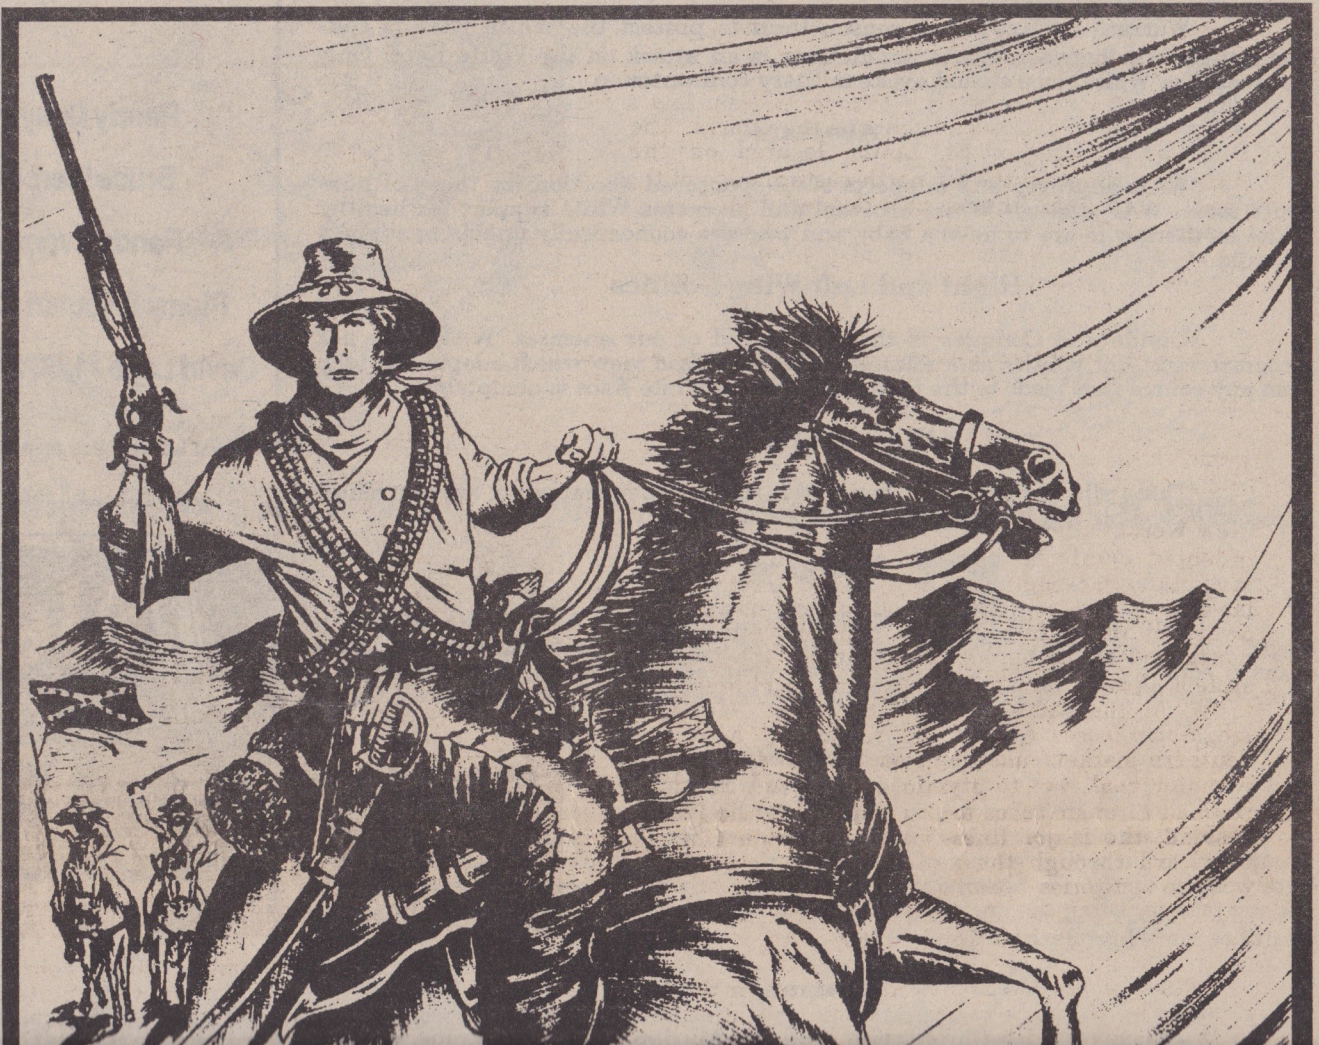

The Confederacy included not only eleven Southern states, but also Missouri, southern Kentucky, eastern Maryland, south-east Kansas, southern New Mexico and Arizona, and the allied Indian Territory of present Oklahoma. Supporting the Confederacy were hundreds and thousands of Northerners, not only Peace Democrats opposed to the War, but also the violent underground units of the Golden Circle and their "Knights of the Invisible Empire," strong throughout Kentucky, Ohio, Indiana, Illinois, Missouri, and New York City. In Illinois, the Golden Circle electorally captured the lower house of the State Legislature and voted to recognize the Confederacy. In New York City, the Golden Circle led Irish immigrants in a bloody anti-draft, anti-Negro insurrection. Confederate agents operating from Canada struck as far north as Lake Erie and Vermont. Vast areas of the North were placed under military dictatorship and thousands incarcerated without charge or trial.

The Union, meanwhile, was not merely the states of the North and West. It was supported by the small White farmers of much of Kentucky, eastern Tennessee, north-western Virginia, western Maryland, western North Carolina, the northern sectors of Georgia, Alabama, Mississippi, and portions of Louisiana and Arkansas. It was there that an old, intense hatred pitted the "Mountain Whites" against an arrogant Southern planter aristocracy. The underground "Heroes of America" killed sheriffs, justices of the peace, and Confederate recruiters and conscriptors.

The American Civil War was an ugly, vicious bloodbath that saw the introduction of revolvers, repeating rifles, machine guns, submarines, torpedoes, aerial bombing from balloons, electric mines, "Greek-fire" chemical-incendiaries, and ironclad warships; of mass railroad transport, electric telegraph, trench warfare, and naval blockade. Confederate sea-raiders operated as far off as the Indian Ocean, South Pacific, and the Bering Strait of the Arctic. On a plea from Washington, the Czar dispatched the Russian Atlantic and Pacific fleets to patrol American waters (their officers and crews were feted in the streets of New York and in the White House ballroom); this move forestalled a Franco-British invasion of the United States (as they had just done in Mexico), and buttressed American support for the Russian suppression of a Polish insurrection. The War produced nationalized communications, transport and commerce; deficit funding in bogus paper currency, financial conspiracies, and counter-expropriations of banks. It was an era of a national secret police, military dictatorship, concentration camps, and the scorched earth strategy of Total War.

The Reasons Why

The real reason for the War revolved around the following questions:

1. Who controlled the economy? Northern bankers, foreign financiers, railroad barons, merchant czars, industrial tycoons, and Federal agents? Or a rival Southern slave-planter aristocracy and their foreign backers?

2. Would government represent the people of each locality and their specific interests? Or would it consolidate a monstrous tyranny in the federal District of Columbia?

3. What of the White working people? Would the

4. What of the White Race? Would the United States remain White, or mongrelize?

Are not these also the questions facing the White Race today?

Missouri Guerrilla War

The conflict in Missouri was a microcosm of the whole struggle. It is here that our study will focus.

The Missouri Compromise of 1820 made Missouri a slave state, although it was ill-fitted for it. Three-quarters of the state juts into the North and the land

romantic kind of affinity with the land of their roots. Their major enemy was not a slaver aristocracy, which scarcely existed in Missouri, but instead an invasion of the state by Northern bankers, railroad conglomerates and foreign speculators (largely German and German-Jewish).

Through the 1850s a bloody conflict raged in nearby Kansas over whether the territory would become a slave or free state. Free-soil farmers from the North entered Kansas, demanding grants of government land and the exclusion of slave plantations. Their economic fate depended upon the extension of vast railroad lines throughout the

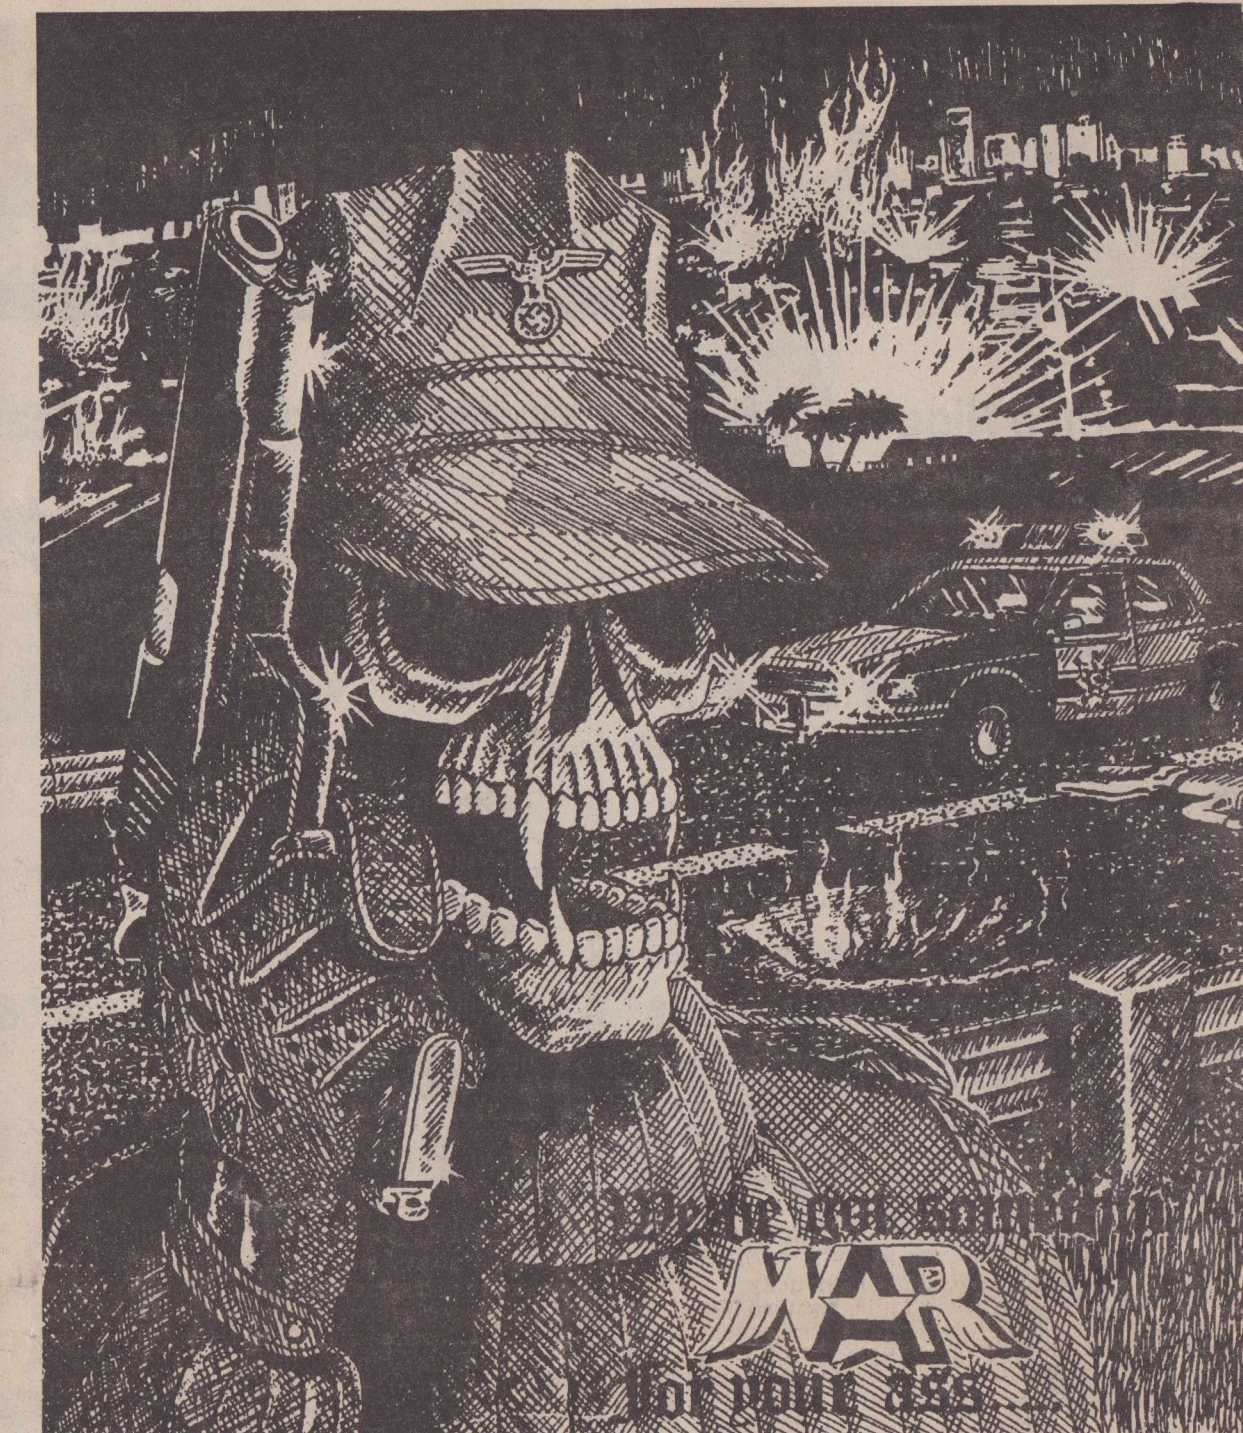

territory. South-east Kansas was settled, however, by farmers from Missouri. Few owned slaves, but they demanded a slave-state status on ideological grounds more than anything else. Backed by gunmen from Missouri, the pro-Southern settlers threatened to dominate the territory electorally. The free-soil farmers, infiltrated by radical abolitionist agitators from New England, established an illegal "Free-State" regime in Northern Kansas and fielded and armed Home Guard. Fighting broke out between free-soil "Jayhawker" raiders and pro-Southern "Missouri Border Ruffians." There were barn burnings, lynchings, massacres, and slave-raids. In 1856, the pro-Southerners raided and sacked the "Free State" town of Lawrence, an abolitionist stronghold founded by the "New England Emigrant Aid Company." In retaliation, the crazed abolitionist John Brown murdered all the males in two families of Southern settlers (neither even owned slaves); the men and boys were hacked to death in front of their women.

The state of Missouri was experiencing another sort of division. In 1850, no railroads crossed the state. By 1860, a rail-line had been laid through Northern Missouri from St. Louis to Kansas, and a railhead pushed south-west towards the Ozarks. The cosmopolitan city of St. Louis, located on the Mississippi River on the far north-eastern edge of the state, across from Illinois, was flooded with foreign immigrants. These were both radical Germans fleeing the failed German Revolution of 1848-49 (some of them early Marxists), and Jewish speculators of all stripes.

Following the conclusion of the Crimean War, Russian grain had re-entered the world market, causing a sharp depression in the northern United States. Over-extended U.S. grain-growers faced bankruptcy, while the railroads and banks suffered a 'panic.' Even by 1859, the northern economy had not fully recovered. A conspiracy of Northern bankers and railroad barons planned a unique way to finance a 'New World Order.' First of all, bankrupt the heavily-indebted small farmers by calling up loans or artificially jacking-up transit rates; then compel landless farmers to work and sell on right-of-way plots owned by the railroads, or on marginal farms over-mortgaged to the banks. Corruption of the political system allowed for another weapon; local and state taxes. At the same time, force open to Northern mega-businesses any of the remaining autarchic Southern markets and take over their local railroads. A major goal was to stymie a projected Southern railroad through Texas to Los Angeles on the Pacific. Instead, the major lines would run from Chicago westward through the more northerly states and western territories to San Francisco.

In the Fall of 1860, four candidates ran for the U.S. Presidency. Lincoln was named a minority President by the Electoral College, although he garnered only two million of the five million popular votes cast. The majority three million votes were split three ways between: (1) Douglas, a moderate Northern Democrat from Illinois, (2) Breckinridge, a pro-slaver Southern Democrat from Kentucky (he was, at that time, the U.S. Vice President), and (3) Bell, a moderate Constitutional Unionist (Old Whig) from Tennessee.

Not only was Republican Lincoln a minority President (1,866,000 votes), but the pro-slaver Breckinridge (848,000), who took the deep-South electoral votes (72), was also a minority choice in the South, with only 44% of the popular votes. Most Southerners split their votes between Douglas and Bell. Missouri's electoral votes went to Douglas, who had only one-tenth of one percent more votes than Bell. Breckinridge took only the southerly Ozarks, while Lincoln won only cosmopolitan St. Louis. Despite a second showing in popular votes (1,383,000) Douglas secured only Missouri and the Northern counties of New Jersey in the Electoral College (12 votes). The border states of Virginia, Kentucky and Tennessee went for Bell, whose Constitutional Union won 39 electoral votes for only 593,000 popular votes. Bell was also supported by Northern Old-Whigs and the

seceded from the Union (December 1860 to February 1861) and established the Confederate States of America. Lincoln had to be secreted into Washington aboard a closed night-train guarded by private Pinkerton detectives. The Federal Capital was a slave district within the slave state of Maryland. When South Carolina fired on Federal forces at Fort Sumter on April 12, 1861, Lincoln called for 75,000 volunteers to defend the Union. Four more states (despite popular misgivings) joined the rebels: North Carolina, Virginia, Tennessee, and Arkansas. In Baltimore, Maryland, ten thousand citizens attacked Massachusetts' troops on their way to protect Lincoln in Washington, D.C. The troops killed one hundred rioters, with four soldiers dead and thirty-six wounded. The enraged "Blood-Tubs" burned the train depot and rail bridges. Maryland's government declared the state "neutral" and cut all rail and telegraph lines with the North. Troops from New York and New England made a seaborne invasion, re-taking Baltimore and relieving the isolated federal capital. A military dictatorship incarcerated thousands of pro-Southerners and formed a puppet state government. This was supported by the Mountain-Whites of western Maryland, but the slaver lowlands remained a nest of spies and smugglers. Volunteers formed a Maryland Regiment of the Confederate Army, and Southern troops sang the refrains of "Maryland, My

Confederate hands until 1864.

Texas conquered New Mexico Territory and created the White Territory of "Arizona," defeating the Federal-backed Mexican-Americans of Albuquerque and Santa Fe. The Indian Territory (Oklahoma) allied with the Confederacy as a slave territory and fielded an Indian auxiliary force.

The Confederates faced considerable resistance at home, some of it armed. As in West Virginia and Kentucky, there was bitter hatred against the slaver aristocracy among the Allegheny "Mountain Whites" of Tennessee, North Carolina, Georgia, and Alabama, and their kindred throughout Mississippi, Louisiana, and Arkansas. The Southern Unionists had opposed secession and a "Peace Democrat" faction grew through the War, especially strong in North Carolina. The "Red Republicans" of northern Alabama agitated for secession from the Confederacy. The underground "Heroes of America" killed sheriffs, justices of the peace, and Confederate recruiters, and protected deserters from the Confederate Army. In eastern Tennessee, thousands of poor Whites joined the invading Union Army. Appointed Head of the occupied Military District of Tennessee was the local Congressman, Andrew Johnson, a loyal "Union Democrat" and violent hater of the rich slaver-aristocracy. He became Lincoln's Unified-Party Vice President in 1865 and then U.S. President on Lincoln's

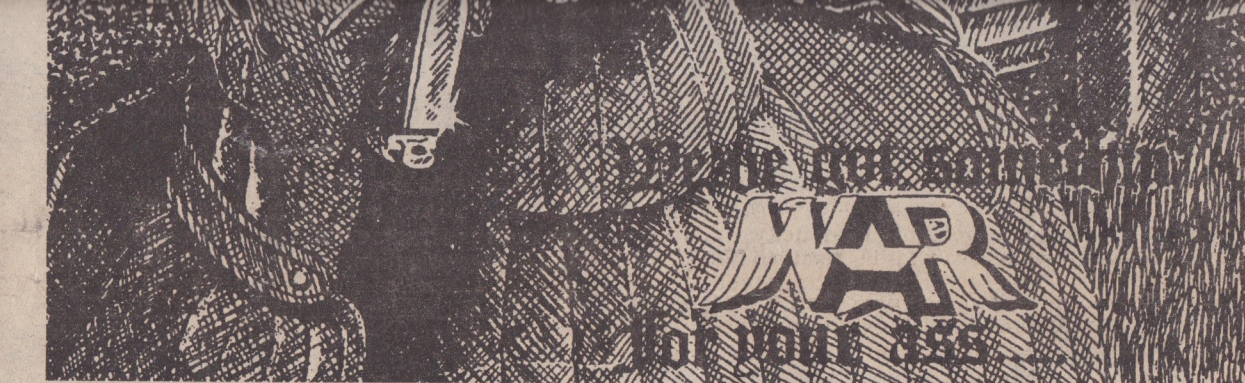

indebted small farmers by calling up loans or artificially jacking-up transit rates, then compel landless farmers to work and sell on right-of-way plots owned by the railroads, or on marginal farms over-mortgaged to the banks. Corruption of the political system allowed for another weapon; local and state taxes. At the same time, force open to Northern mega-businesses any of the remaining autarchic Southern markets and take over their local railroads. A major goal was to stymie a projected Southern railroad through Texas to Los Angeles on the Pacific. Instead, the major lines would run from Chicago westward through the more northerly states and western territories to San Francisco.

Election of 1860

In the Fall of 1860, four candidates ran for the U.S. Presidency. Lincoln was named a minority President by the Electoral College, although he garnered only two million of the five million popular votes cast. The majority three million votes were split three ways between: (1) Douglas, a moderate Northern Democrat from Illinois, (2) Breckinridge, a pro-slaver Southern Democrat from Kentucky (he was, at that time, the U.S. Vice President), and (3) Bell, a moderate Constitutional Unionist (Old Whig) from Tennessee.

Not only was Republican Lincoln a minority President (1,866,000 votes), but the pro-slaver Breckinridge (848,000), who took the deep-South electoral votes (72), was also a minority choice in the South, with only 44% of the popular votes. Most Southerners split their votes between Douglas and Bell. Missouri's electoral votes went to Douglas, who had only one-tenth of one percent more votes than Bell. Breckinridge took only the southerly Ozarks, while Lincoln won only cosmopolitan St. Louis. Despite a second showing in popular votes (1,383,000) Douglas secured only Missouri and the Northern counties of New Jersey in the Electoral College (12 votes). The border states of Virginia, Kentucky and Tennessee went for Bell, whose Constitutional Union won 39 electoral votes for only 593,000 popular votes. Bell was also supported by Northern Old-Whigs and the American Party "Know-Nothings." Lincoln and the Republicans captured the Northern states and California and Oregon on the Pacific, for 180 electoral votes. The free-soiler, Abraham Lincoln, was actually a moderate Liberal-Whig who advocated the deportation of Negroes to Africa and Central America. But his newly-founded Republican Party was hamstrung by fanatical Radicals, the integrationist "Black Republicans," and by sinister Northern financiers and industrialists. Originally a Western free-soil Populist Party, which had previously contested for the Presidency only in 1856, the Republicans were already dominated by the Eastern Establishment.

Long before Lincoln assumed office on March 4, 1861, seven slave states (six Deep South and Texas)

seceded from the Union (December 1860 to February 1861) and established the Confederate States of America. Lincoln had to be secreted into Washington aboard a closed night-train guarded by private Pinkerton detectives. The Federal Capital was a slave district within the slave state of Maryland. When South Carolina fired on Federal forces at Fort Sumter on April 12, 1861, Lincoln called for 75,000 volunteers to defend the Union. Four more states (despite popular misgivings) joined the rebels: North Carolina, Virginia, Tennessee, and Arkansas. In Baltimore, Maryland, ten thousand citizens attacked Massachusetts' troops on their way to protect Lincoln in Washington, D.C. The troops killed one hundred rioters, with four soldiers dead and thirty-six wounded. The enraged "Blood-Tubs" burned the train depot and rail bridges. Maryland's government declared the state "neutral" and cut all rail and telegraph lines with the North. Troops from New York and New England made a seaborne invasion, re-taking Baltimore and relieving the isolated federal capital. A military dictatorship incarcerated thousands of pro-Southerners and formed a puppet state government. This was supported by the Mountain-Whites of western Maryland, but the slaver lowlands remained a nest of spies and smugglers. Volunteers formed a Maryland Regiment of the Confederate Army, and Southern troops sang the refrains of "Maryland, My Maryland!"

The Northern slave-state of Delaware remained in the Union. North-west Virginia seceded from the rebel state and joined the Union as West Virginia, although it remained slave and its southern counties stayed in Confederate hands to War's end. Kentucky was "neutral," its Governor and State Militia pro-secessionist, but the majority of the Legislature was pro-Union and forming an armed Home Guard. Confederate and Union troops invaded and the State Militia joined the Confederacy, a soldiers' convention voting Kentucky the 13th Confederate state. While 35,000 Kentuckians joined the rebels, over 75,000 (including 14,000 Freed Negroes) enlisted in the Union Army. South-eastern Kentucky was kept in

Confederate hands until 1864.

Texas conquered New Mexico Territory and created the White Territory of "Arizona," defeating the Federal-backed Mexican-Americans of Albuquerque and Santa Fe. The Indian Territory (Oklahoma) allied with the Confederacy as a slave territory and fielded an Indian auxiliary force.

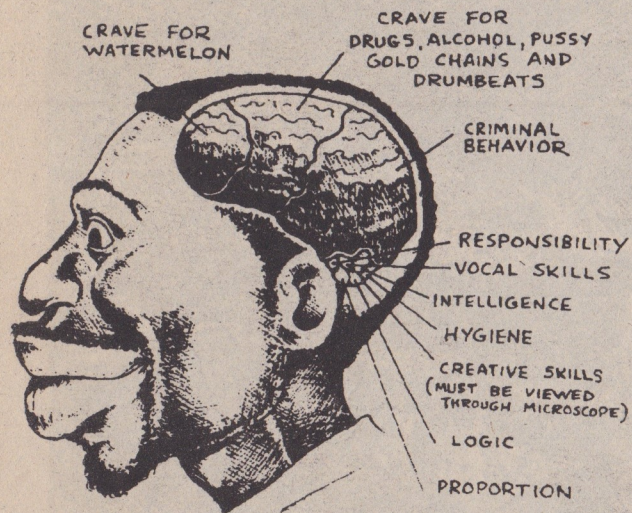

The Confederates faced considerable resistance at home, some of it armed.
